Designed for the maintenance and deep cleaning of large areas (up to 3200 sqm.) with a very important reduction of cleaning cost. Very compact size and great maneuverability like walk behind models: suited for maintenance cleaning. • 32 kg. of constant pressure on the brushes. • Double counter rotating brush (66 cm of scrubbing width) obtaining better stability and constant pressure. • Great working autonomy (till 4,5 hours) thanks to the possibility to use 4 batteries 6 V 240 Ah and to rear wheel-drive. • Large load tank capacity (real load of 75 l. ), resulting in reduced numbers of stops and maximum use of battery for effective operation of the machine. • Ergonomic steering wheel of new design with user friendly controls and digital display. • Easy access to electrical components. • Inspection cover for fast and easy cleaning and sanification of dirt water tank. • Automatic device that stops brushes and detergent water outflow when the machine is stationary. • Self-levelling brush plate. • **Automatic detergent measuring system.**

User friendly control panel. Steering wheel with digital controls and display. Squeegee and brush plate mechanical and user friendly lifting lever: min. maintenance cost training time for the users. Scrubbing unit with double brush with brush plate made of steel for a great pressure (32 Kg.) on the floor resulting in an easy and deep cleaning of any kind of dirt.

Rear wheel-drive on 2 wheels allows the machine to get over remarkable slopes . Detergent solution is cleansed by an external completely accessible filter, that holds any impurities, thus protecting the solenoid valve. The easy access to all internal components of XXS make it possible to reduce maintenance cost.

The comfortable and ergonomic seat allows the operator to work effortless for a long time, improving productivity. Its very compact size make it perfect to work in small areas where walk behind models are usually used. The use of XXS makes working easier and quicker with a huge saving of time.
